What are the 7 continents of the world?

What are the four countries and capital cities of the UK?

Where in the world is it hot, cold or temperate?

How do we measure the weather?

What are the 4 UK seasons like?

What are the 4 points of the compass?

Words we understand:

- climate
- habitat
- season
- equator
- continent
- camouflage

Activities to try at home:

- Plant some bulbs
- Watch a weather forecast on TV
- Make a bug hotel

Did you know?

- The centre of a storm is called an eye.
- Africa is the hottest continent.
- Commonwealth Bay in Antarctica is the windiest place on Earth.
- There are more tigers kept as pets than there are in the wild.

Wild Things

A habitat is where plants and animals live.

Animals and plants adapt to their habitat.

Can you retell the story?

There are 7 continents!

- Australasia
- Europe
- Africa
- North America
- South America
- Asia
- Antarctica

A cactus has a waxy layer to stop it losing water.

A polar bear has black skin and its hairs are tiny tubes. This helps it keep warm

All plants grow from seeds and bulbs. They need warmth, water and light to grow.

Countries nearer to the equator are warmer and wetter.
